FOURTEEN YEAR INDEX TO NATIONAL CONVENTION TRANSACTIONS: 1947 — 1960

The numbers following the years are the pages on which the papers indexed begin. For example, there are two papers in the Transactions for 1947 that are about Administrative Applications, and they start on pages 111 and 193.

There was no publication in 1948. The 1949 publication consisted of abstracts. In 1950 there were ten papers separately bound and numbered from one to ten. The listings for that year are therefore the number of the papers. The listings for other years are all page numbers.
